

Trans IGBT Chip N-CH 1200V 220A 1500mW 3-Pin(3+Tab) TO-264

Images are for reference only

Manufacturer: [Littelfuse Inc](#)

Package/Case: TO264

Product Type: Thyristors

RoHS: RoHS Compliant/Lead free 

Lifecycle: Active

[Inquiry](#)

General Description

Manufactured through the state-of-the-art GenX3™ IGBT process and an extreme-light PunchThrough (XPT™) design platform, these devices feature high-current handling capabilities, high-speed switching abilities, low total energy losses, and low current fall times. They have a positive collector-to-emitter voltage temperature coefficient, making it possible for designers to use multiple devices in parallel to meet high current requirements. Their low gate charges also help reduce gate drive requirements and switching losses. In addition to being avalanche rated, these devices have square Reverse Bias Safe Operating Areas (RBSOA) up to the breakdown voltage— a necessary ruggedness in snubberless hard-switching applications.

Key Features

- Optimized for 20kHz-60kHz switching
- Square RBSOA
- Short circuit capability
- Avalanche rated
- Ultra-fast anti-parallel diodes
- International standard packages
- Advantages:
- Hard-switching capability
- High power density
- Low gate drive requirements

Application

- Battery chargers
- E-Bikes
- Lamp ballasts
- Power inverters
- Power Factor Correction (PFC) circuits
- Switched-mode power supplies
- Uninterruptible Power Supplies (UPS)
- Welding machines
