Manufacturer:	Intel Corp
Package/Case:	QFP
Product Type:	Programmable Logic ICs
RoHS:	RoHS Compliant/Lead free 
Lifecycle:	Obsolete

General Description

EPF10K30EQC208-3N is a programmable logic device (PLD) manufactured by Altera (now part of Intel).

Key Features

It has 30,000 usable gates and 768 macrocells.

It operates on a 3.3V power supply.

It has 208 pins in a Quad Flat Package (QFP) form factor.

Application

EPF10K30EQC208-3N can be used in a variety of applications including industrial automation, telecommunications, networking, automotive, and military.

It can be used to implement digital signal processing, high-speed data processing, and control logic.
